

Univerza v Ljubljani

Fakulteta za elektrotehniko

Darko Šekuljica

**Survey and Analysis of the Methods to
Measure the Quality Factor in the X-band
large aperture antenna system**

Magistrsko delo

Mentor: Matjaž Vidmar

Ljubljana, 2016

Abstract

Here comes the abstract...

Key words: word1, word2, word3

00001 Introduction

00002 Satellite to Earth Transmission Link Balance

02.1 Friis Transmission Equation

02.2 Free Space Path Loss

02.3 Effects of Atmosphere on Earth Space Radio Propagation

02.4 Antenna Losses

02.5 G/T requirement

00003 Large Aperture Reflector Antennas

00004 Astronomical Bodies

00005 G/T Quality Factor

05.1 Indirect Method

05.2 Direct Method

5.2.1 Extended Source Size Correction Factor

00006 Measurements

06.1 Measurement Setup

06.2 Performed Measures

00007 Conclusion
